Staffroom Essentials	14

IGUANA Universal
Jointless Aero Wiper Blades

Each kit is complete with seven, quick and easy to fit connectors to suit the majority of vehicle applications (see below).

- **Rubber blade edge is manufactured from a unique natural and synthetic rubber mix, designed to offer quality wiping performance with enhanced durability and life span**
- **Aero design provides improved performance by reducing wind lift and noise at high speeds**
- **Manufactured with two tensioned steel strips which apply the whole length of the blade to the windscreen with even, consistent pressure**

Each IGUANA Universal Jointless Aero Blade incorporates a centralised rubber spoiler which right-hand drive and left-hand drive vehicles as well as vehicles with 'clapping' blades. Each blade comes complete with seven different connectors to cover the majority of vehicle applications:

Part No.	Qty	Length
